● ORGANISATIONAL SKILLS

Organizational Skills

I possess the ability to perform, both autonomously and as part of a team, a broad range of activities related to the conception, specification, planning, implementation, evaluation, support, and maintenance of computer systems. Additionally, I have knowledge in the field of data processing and transmission technology, as well as skills in the development of computer applications. My ability to work across various aspects of the lifecycle of technological projects enables me to contribute effectively to the efficiency and success of initiatives in this field.

● WORK EXPERIENCE

01/10/2009 – 30/09/2010 Ponta Delgada, Portugal

TÉCNICO NOVABASE ATLÂNTICO, SISTEMAS DE INFOMAÇÃO, SA

Address Rua José Borges Pimentel n26, R/C, 9500, Ponta Delgada, Portugal

02/07/2012 Ponta Delgada, Portugal

INTERNSHIP VICE PRESIDENCIA DO GOVERNO DOS AÇORES

15/07/2017 – 14/08/2017 Lagoa, Portugal

INTERNSHIP GLOBALEDA

01/01/2020 – 01/04/2024 Lagoa, Portugal

DEVELOPER SISDIAS,LDA

- **Frontend Development:**

- I created responsive and engaging interfaces using HTML, CSS, and JavaScript.
- Integrated APIs and external services to provide advanced functionalities.

- **Backend Development:**

- Implemented the business logic and core functionality of the application.
- Managed servers, databases, and content management systems.
- Ensured system security, authentication, and authorization.

- **Database Management:**

- Managed the database, including data modeling, SQL queries, and performance optimization.
- Ensured data integrity, security, and data recovery.

- **Server Management and Deployment:**

- Configured and maintained web and application servers.
- Implemented and monitored systems in cloud environments (e.g., Digital Ocean).
- Automated deployment and update tasks using Docker.

- **Troubleshooting:**

- Identified and resolved technical issues across all layers of the application.

- **Project Management**

- Sprint Backlog Preparation
- Project Development Monitoring

● EDUCATION AND TRAINING

06/10/2006 – 07/07/2009 Ribeira Grande, Portugal

GESTÃO E PROGRAMAÇÃO DE SISTEMAS INFORMÁTICOS - NÍVEL III Escola Profissional De Ribeira Grande

Main disciplines:

- Operating Systems;
- Computer Architecture;
- Communication Networks;
- Programming and Information Systems.
- Work-related training;

Professional skills:

- Install, configure and maintain computers isolated or included in a local network;
- Install, configure and maintain computer peripherals or a local network;
- Install, configure and maintain local network structures and equipment;
- Install, configure and maintain client and server operating systems;
- Implement and maintain security policies in computer systems;
- Install, configure and maintain computer applications;
- Carry out information systems analysis;
- Design algorithms by dividing problems into components;
- Develop, distribute, install and maintain computer applications, using procedural and visual programming languages and environments;
- Design, implement and maintain databases;
- Manipulate data taken from the database;
- Install, configure and maintain servers for the Internet;
- Plan, execute and maintain pages and websites on the Internet;
- Develop, install and maintain information systems based on web technologies.

● **COMPETÊNCIAS RELACIONADAS COM O TRABALHO**

Technical Skills

Programming Language

- Java
- JavaScript
- TypeScript
- Python
- PHP

Web Technologies:

- HTML
- CSS

Version control:

- Git

Virtualization:

- Docker
- Proxmox
- AWS
- DigitalOcean
- Azure

Frameworks:

- Angular CLI
- Quarkus
- Java EE
- CDI
- EJB
- JSF

Development Tools:

- Apache Maven
- Asdf

Servers Web:

- Apache
- Nginx

ORM (Object-Relational Mapping):

- Hibernate

Authentication and Authorization:

- Keycloak

Proxy:

- HpProxy

These skills showcase my proficiency in a variety of programming languages, web technologies, and essential tools in the field of software development. My experience spans from creating dynamic applications to efficiently managing projects and version control. I am prepared to make a significant contribution in team environments, providing innovative and practical solutions to technical challenges.

● **PROJECTS**

02/01/2020 – 01/04/2024

Transferdoc

Transferdoc is an online platform developed specifically to meet the needs of accounting professionals and authorities in general. It offers a complete solution for managing, storing and sharing accounting documents, such as invoices, bank statements, financial statements and much more.

01/07/2023 – 01/09/2023

Website of the Junta de Núcleo de São Miguel of CNE

The development of the website for the Junta de Núcleo de São Miguel using CMS WordPress.
